

WANTED:

Healthy children and teenagers between the ages of 7 and 17 years.

Healthy children and teenagers between the ages of 7 and 17 years will have a health questionnaire, a physical examination, and blood and urine samples collected. This should take only one hour of time. The physical examination will be documented and may be used for school, sports, or scouting activities.

CHILD_x

PURPOSE:

The purpose of this study to determine the normal values for a variety of clinical laboratory tests performed on blood and urine.

CONTACT:

For further information, please contact John Simmons, PA-C (Physician Assistant), at 583-2787 Extension 2968 and mention the pediatric reference interval study.

Participants will be compensated for their time.
